

Creating your Personal-Code

Explanation

Please create your personal code with the help of these instructions. Your data will not be stored under your name but using this code. This code is individual, but it does not allow any conclusions to be drawn about your person. This is to ensure anonymization. However, you can reconstruct the code by yourself at any time. This is necessary if you wish to revoke your consent within two weeks. After this period, the assignment of your code to the data will be deleted. Afterwards, an assignment is no longer possible.

These are the components of your personal code:

1. Last digit of your postal code.
2. Third letter of the street in which you live.
3. First letter of your birthplace.
4. Second to last letter of the given name of your mother.
5. Last digit of your birthday.

Example:

Postal Code:	10587	→	7
Street:	Marchstr.	→	R
Birthplace:	Mainz	→	M
Given Name of Mother:	Sylvia	→	I
Birthday:	12. July	→	1
